

TRANSITIONS HEALTH

Henry County Medical Center is committed to providing comprehensive care to all patients – no matter where they are in their healthcare journey. That’s why we are thrilled to have Transitions Health in the outpatient clinic and Plumley Rehab.

For those individuals who are recovering from a hospital stay, Transitions Health can greatly simplify the switch from hospital to home. And for the residents of Henry County Healthcare Center who view HCHC as their home, Transitions Health plays a critical role in allowing them to remain in their normal environment while receiving a more intense level of care – helping to relieve stress for the residents as well as their family members.

We are proud to make these healthcare transitions easier for our patients and their loved ones.
